LIFE AFTER SCHOOL

Exploring your options
as a young person
living with disability

AS IF LIFE ISN'T HARD ENOUGH. 🧑

Not sure what to do once you have left school?

It's ok. Not many people do – but we can help! Leaving school can be tricky, especially if you're not sure what you really want to do.

WAIT, SOMEONE WILL PAY ME TO DO THAT? 💰

The first step is figuring out what you might want to do in the future and creating a plan around those goals. It's our job to help you reach them! There are so many exciting options to explore. From selling your own artwork to studying law to joining a local sporting group or volunteering at the RSPCA.

WHAT EVEN IS A RESUME? 🤔

Finding a job is one thing, but you need to sell yourself as the best person for that job. We'll help you write your resume and even help you with a practice job interview!

READS JOB AD

CANDIDATE MUST HAVE 100 YEARS OF EXPERIENCE 😬

OMG! How are we supposed to have work experience when I haven't even had a job? Don't worry! We can help you find work experience and help to build your skills, so you slip straight into the flow of things. We'll teach you how to manage your money, how to communicate professionally with your workmates (and your boss!) and work on time management skills to stand out as a superstar!

NO JUDGING ALLOWED 🧑🧑🧑

Life is hard enough as a teenager, especially when you have a disability. **The last thing you need are judgy people bringing you down.** Our Life After School program doesn't have room for people like that. Everyone running the program works in the disability sector, and we'll have people with disabilities who have gone through this themselves to share their experience and give you a hand.
